PROFESSIONAL SUMMARY

Passionate and detail-oriented web developer with hands-on experience in building full-stack applications using modern technologies like React, JavaScript, and Flask. Skilled in developing responsive user interfaces, creating REST APIs, and integrating frontend with backend systems. Experienced in deploying applications and solving real-world challenges such as API integration and performance optimization. Eager to contribute to scalable and user-focused web solutions.

EDUCATION

Bachelor of Engineering (B.E.) , Sipna College of Engineering and Technology, Amravati Electronics and telecommunication. CGPA: 7.25	2022 - 2026
HSC 12th grade, Maharashtra State Board Percentage: 84.50	2020 - 2022

SKILLS

Technical Skills:	Python, SQL, React, JavaScript, HTML, CSS, PowerBi.
Framework:	Flask
Soft Skills	Analytical, Collaborator, Leadership, Adaptable

PROJECTS

AI Career Assistant (HTML5, CSS3, JS, React, Python, Flask, API, SQL, Git)	-(Open)
- Built a full-stack AI-powered career assistant using React and Flask, enabling resume analysis, career recommendations, job search, roadmap generation, and chatbot interaction through integrated REST APIs. - Implemented PDF-based resume parsing and keyword-driven scoring to generate ATS scores, strengths, weaknesses, and improvement suggestions, along with AI-based responses using external APIs. - Deployed the application on Render, handling real-world challenges like API integration, CORS issues, and database setup, while implementing user activity tracking using SQLite.	
Agriculture Model for Sustainable Crop Planning (Python, Data Analysis, ML)	-(Open)
- Built a machine learning-based crop recommendation system using environmental and soil parameters - Performed data preprocessing, feature selection, and model training to improve prediction accuracy - Developed end-to-end pipeline for data analysis, model evaluation, and output generation - Focused on optimizing agricultural productivity and enabling data-driven farming decisions	

ACHIEVEMENTS

Founder — HydroDefend Solutions (Registered Firm)

Leading an early-stage venture focused on developing innovative solutions. Currently working on product design, solution architecture, and feasibility analysis, with emphasis on scalability and real-world implementation. Involved in planning, research, and strategic development of the product roadmap.
